Order to cash Module

Q.1. What are the Steps of the Order to cash?

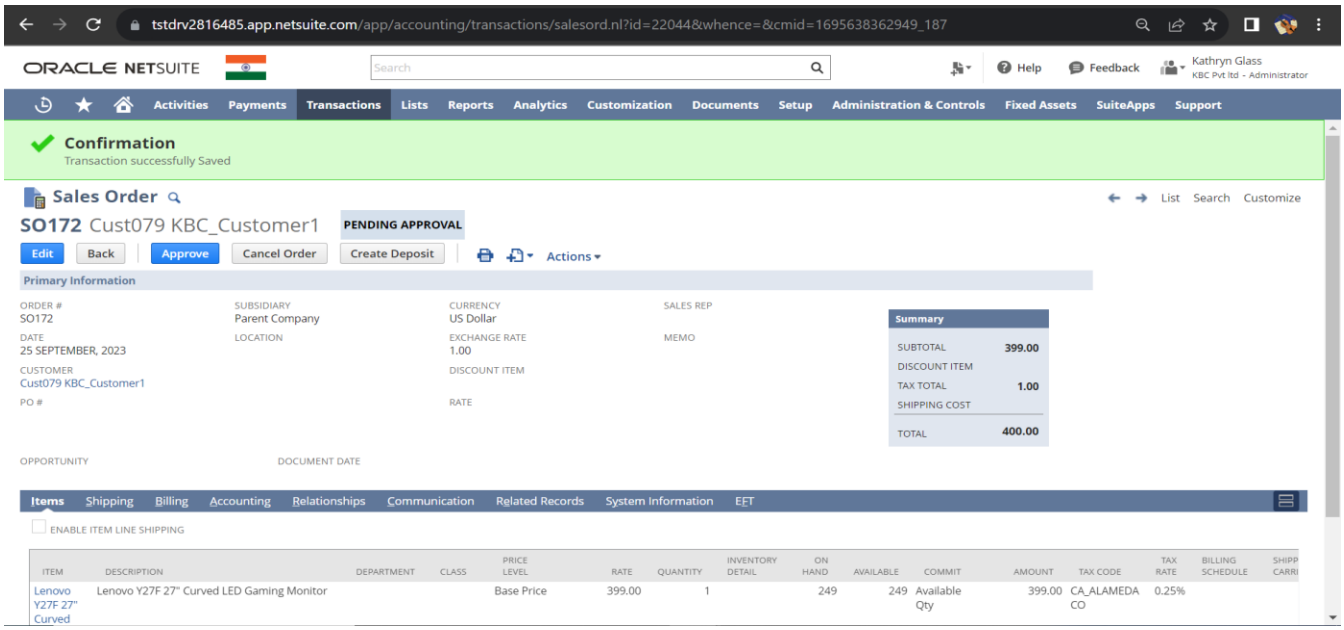
Ans.

- **Step 1:** Create a sales order in NetSuite when a customer places a purchase order. This sales order contains information about the products or services the customer is purchasing.
- **Step 2:** Send an order fulfillment to the customer to acknowledge their order and provide details such as expected delivery dates and pricing.
- **Step 3:** Prepare the items from your inventory for shipment based on the sales order. This may involve picking items from the warehouse and packing them for shipping.
- **Step 4:** Generate shipping labels and documentation, and then ship the items to the customer.
- **Step 5:** Create an invoice in NetSuite based on the shipped items. This invoice is sent to the customer for payment.
- **Step 6:** Receive and process payments from the customer. NetSuite can integrate with various payment gateways and financial systems to automate this process.

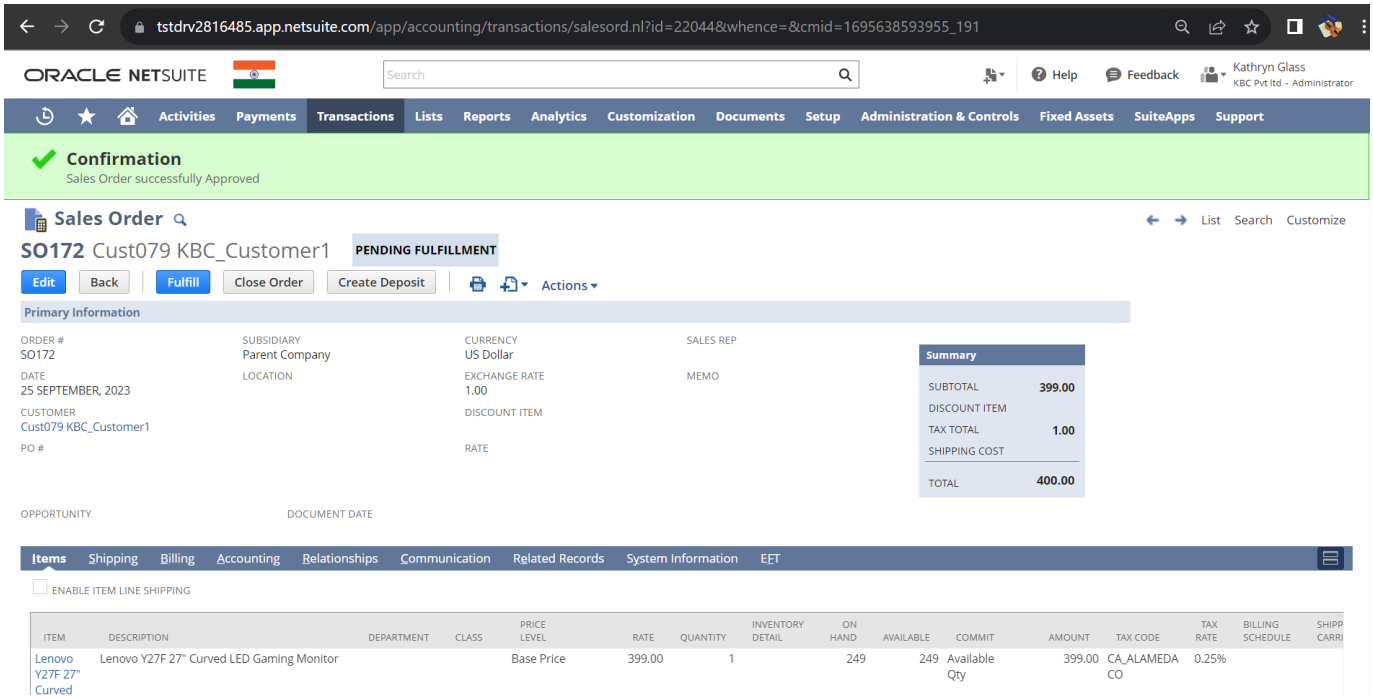
Q.2. Once the Sales Order is approved can we change it into pending approval?

Ans.

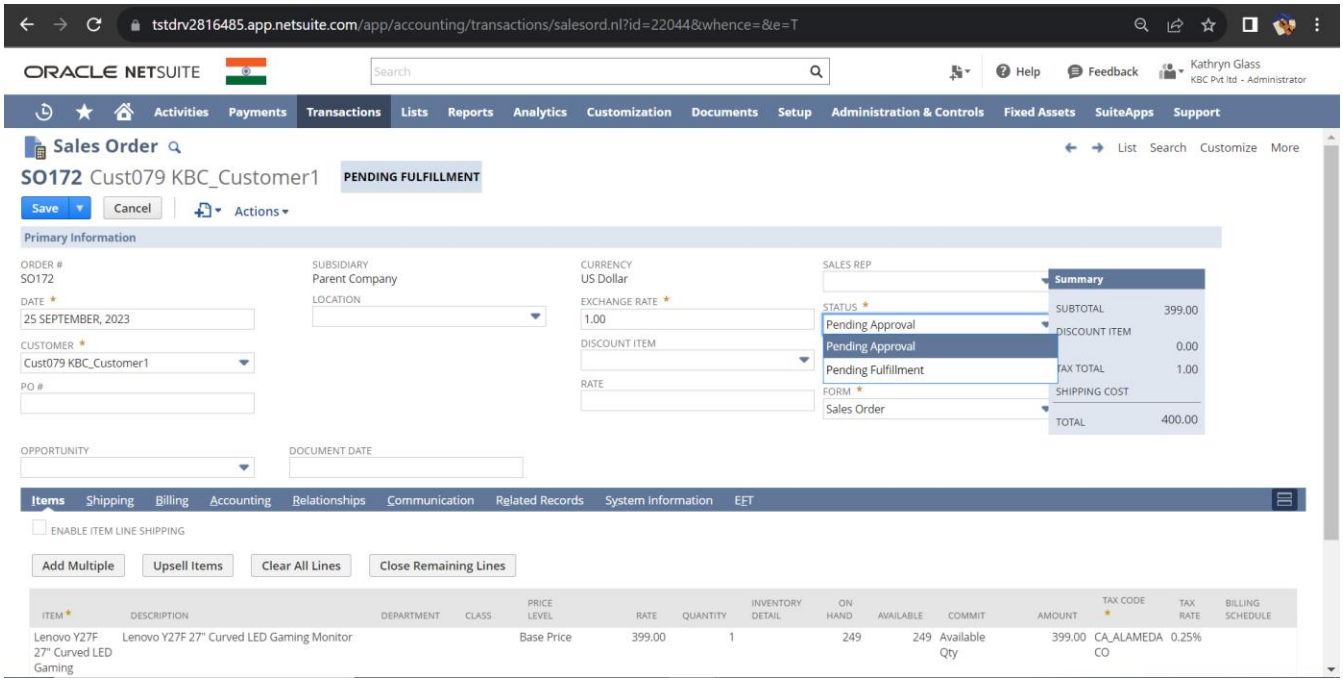
- **Create Sales Order:** Transaction > Sales > Enter Sales order



- **Approve Sales Order:** Transaction > Sales > Enter Sales order > List > Find the sales order which we had recently created > Click on view > Click on “Approve” button



- **Change Approved to pending approval:** Transaction > Sales > Enter Sales order > List > Find the sales order which we had recently created > Click on view > Click on “Edit” button > Status > Select Pending approval



Q.3. How many statuses in sales order and can we change directly in pending fulfilment?

Ans.

- **Closed** – The sales order is closed and will not be fulfilled or billed.
- **Pending Approval** – The sales order has not been approved.
- **Pending Fulfillment** – The sales order is approved, and pending shipment of items ordered.
- **Partially Fulfilled** – The sales order is partially shipped, regardless of billing status.
- **Pending Billing** – The sales order is pending the creation of an invoice or cash sale, including partially billed sales orders.
- **Pending Billing/Partially Fulfilled** – The sales order is approved and partially fulfilled. Billing occurs when an invoice or sales order is created.
- **Billed** – The sales order is completely shipped and billed.
- **Canceled** – The sales order has been canceled by clicking Cancel Order. Canceled is a terminal status and cannot be undone. You must copy or recreate the sales order if it is needed again.

Q.4. Can we change the shipping address on the Sales Order?

ü Attention- XYZ

ü Addressee-XYZ1

ü Address 1- Line No 1

ü Address 2- Line No 2

ü State- Maharashtra

ü Country- India

Ans.

Transaction > Sales > Enter Sales order > List > Edit > Shipping > Shipping address > Ship to select > New > Enter all details > Save

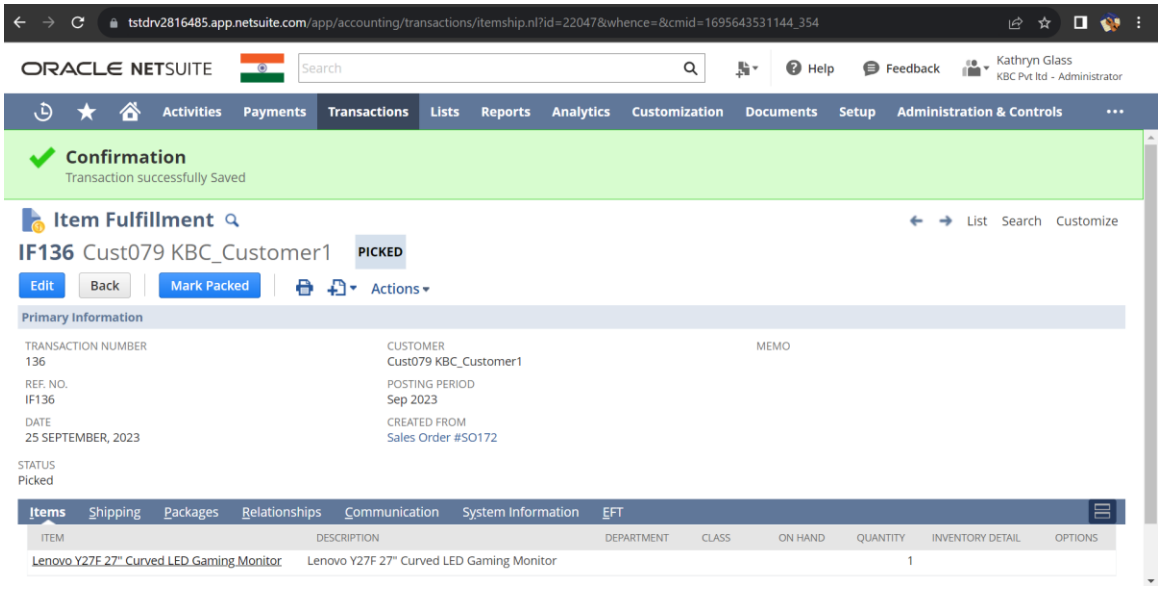
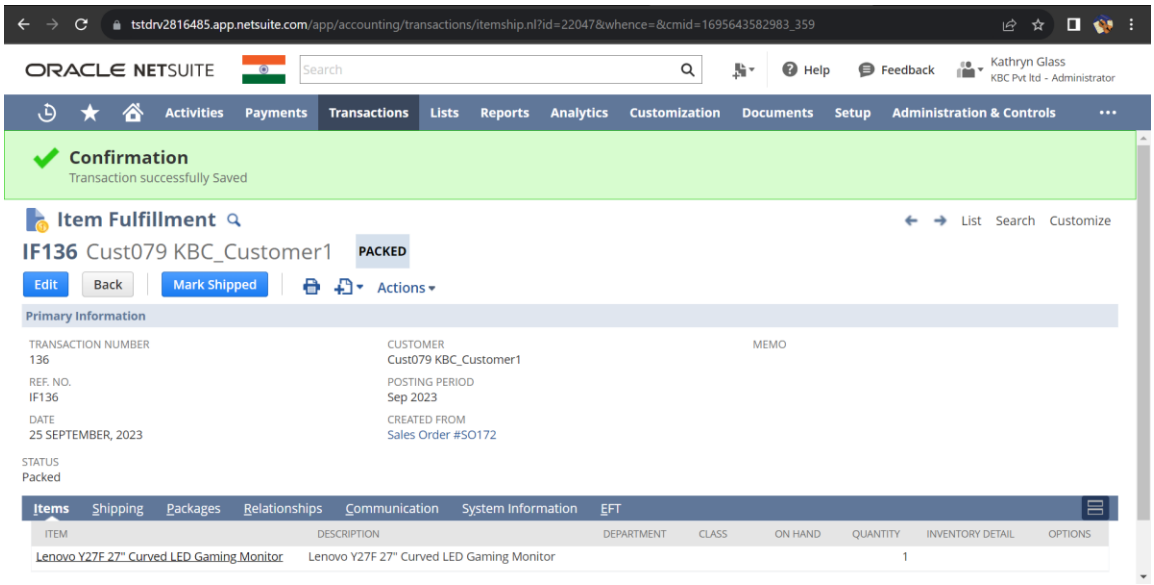
Q.5. Steps of the Item Fulfilment and described each of them?

Ans. When Inventory items get ready to ship from warehouse to customer location then it's called Item fulfillment. Item fulfillment in NetSuite refers to the process of picking, packing, and shipping items to fulfill customer orders.

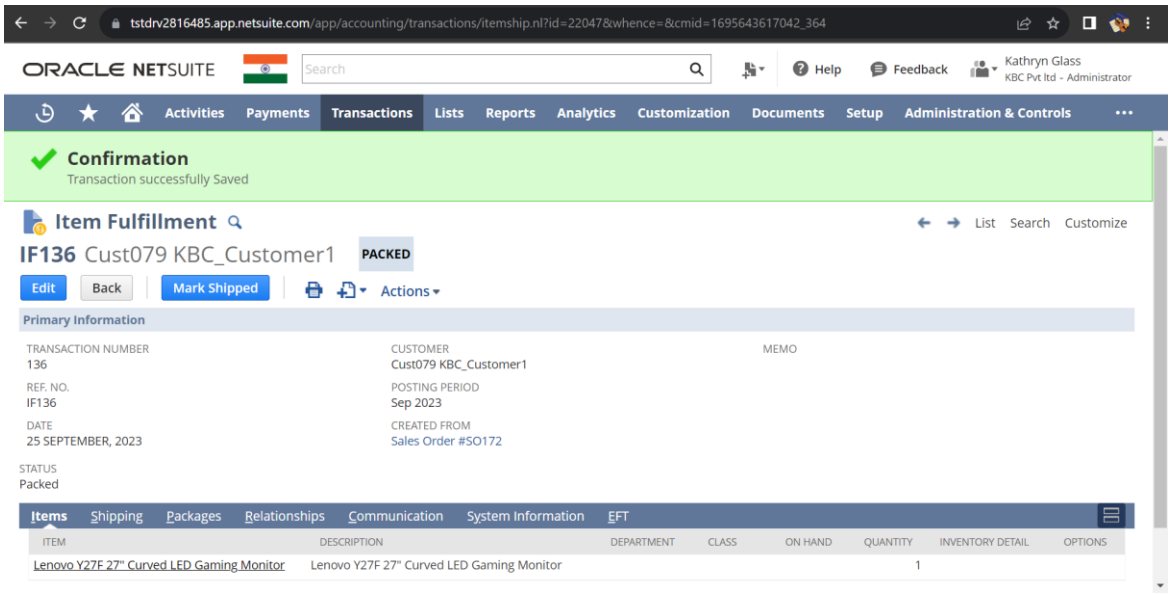
- **Picking**: After confirming item availability, the system generates a picking list. Warehouse employees use this list to pick items from the warehouse.



- **Packing**: Once the items are picked, they need to be packed for shipping. The system can also calculate shipping costs based on carrier rates and package dimensions.



- **Shipping**: NetSuite integrates with various shipping carriers (e.g., UPS, FedEx, USPS) to streamline the shipping process. Shipping labels are generated, and shipping costs are recorded.



Q.6 Create a Sales order with 2 items and fulfil only 1 item?

Item Name: Lenovo Y27F 27" Curved LED Gaming Monitor

Customer Name: Cust004 France System

Ans.

- **Create Sales Order:** Transaction > Sales > Enter Sales order > Select Item name & Its quantity > Save
